(Attn.: Mr. Ronnie Lai)

Dear Sir,

RS NANO FLOWERS

I was introduced to RS Nano Flowers by Encik Rahim Bin Kahar.

I was a bit skeptical initially since the RS Nano floral arrangement looks like any of the typical floral arrangements in our office. This is especially so since there was no electrical connections and no special filtration system, as such how could these RS Nano Flowers work to purify the air!

The vase of RS Nano Flowers was placed in my office and to my surprise I should confirm that indeed after three days the odors including cigarette residue smells were completely removed.

I would be delighted to recommend RS Nano Flowers to my colleagues and friends.

Thank you.

Yours faithfully,

(**DATUK JUMAT ENGSON**)
