To whom it may concern

I, Datuk Mohd. Lan Allani, hereby testify to the effectiveness and suitability of RS Nano Flowers as an indoor odor removing agent both for the home and office.

The product in the form of a vase of flowers has effectively kept my office and home odorless by removing all offensive smells such as that caused by cigarette smoke, foodstuffs and even damp, mouldy carpets. It is also not obstrusive because it comes in the form of flowers that can be placed discreetly at any convenient spot. An added bonus is that I no longer have the need to use any chemical spray to keep my office and home free of unwanted odors.

Sincerely

YB. Datuk Mohd. Lan Allani,  
CHAIRMAN
